b If the higher classes are to keep pace with the expansion of primary Edn. the provn of such facilities is necessary It is time that Scholarships are limited to those who cannot afford to pay for their Edn. It is only in this way that the real objects of ~~scholarships~~ facilitating the education of a greater number than otherwise would be the case, will be achieved. Probably the new Schps may be restricted to those whose means or those of their parents ~~or guardians~~ does not exceed a monthly income of Rs 5-0/—.

A regular scholarship ladder should form an important part of the educational system of any country so as to ensure that even the poorest student, if he has brains, may have an opportunity of having the highest education.

13

But such a scheme to be effective must be worked and financed by local bodies and not by a central Government Department. The administration of a system of scholarships to be awarded on the basis of pecuniary circumstances of the recipients by a Central Government Authority cannot but lead to inequality of treatment and waste of Government money. For this reason, in British Indian Provinces, the scholarships are awarded on the basis of results and not to poor students. For the above reasons and also because the financial situation does not warrant additions to the recurring expenditure, I recommend that the scheme proposed by the Inspector-General of Education may not be sanctioned in the form in which it has been presented. The Local Funds Reorganization Committee are making proposals which will place ample funds at the disposal of local bodies for educational purposes and a scheme of scholarship may form part of the educational programme of our rejuvenated local bodies.

	25 I believe there is a similar proposal being considered by the 2nd Committee - the file may be sent to the Legislative Secretary for a note.
	26 It is very necessary to institute some scholarships to encourage high school education particularly in areas situated at a distance from ~~Dr~~ Dts or a ~~the~~ place where a High school is located. Such a measure will help to distribute the benefits of high school education fairly over the State.
	27 The scholarships should be attached to the locality - taluk, town or sub-taluk - should be awarded by a local committee. The student should be at liberty to read in any High school in the State.
	28 I do not think the so-called merit scholarships are quite needed as generally the ordinary scholarship will be given to the best boy, if the best boy is well-to-do he will go to the High school of his own accord.

4	It has to be noted moreover that the amount is required for a scheme which though desirable (in some respects), is not one of any great urgency or importance. After all it is not the secondary stage of literary Edn which requires particular encouragement — there is, so to say a partiality for it already in the mind of the Mysore parent. Technical & Industrial Edn — there are the branches which require inducement in the shape of scholarships &c. Plenty of failed matriculates & school finals already!

There are no schs. in the High School classes except for Mahommedans and Pallegars, while schs. have been provided for the students of all the other classes, College, Middle and Primary.

The D.P. of Edn has submd proposals to institute 50 schs. in all as follows:-

~~74~~

40 English schs:

The D.P.'s scheme involves an additional cost of Rs. 8644 from the 3d year onwards, the amount necessary for the 1st year being Rs. 3096.

The Education Committee of the Ec. conf^ce who were consulted in the matter, in addn to the 6 merit schps of Rs 6 each have proposed that 1 schp. of Rs. 5 each p.m. may be given to one student from each taluk or sub-taluk, that passes highest in the English Lower Secondary Examination among the ~~students~~ candidates from ~~that taluk~~ or ~~sub-taluk~~ the Anglo-Kannada Schools of the taluk or sub-taluk, on the following conditions:

The schps. should be given only to the pupils of ~~Schools~~ coming from stations where there are no High Schools;

They should be granted only when the students concerned cannot continue their study without the help of schps.

The schp.-holder should live in the ~~High School~~ hostel, where one is available, attached to the High School where he studies.

The decision of the schp! will be ~~be~~ based on his satisfactory progress conduct of the students.

and the Schl- holders will be exempted from paying the school- fees.

Regarding the grant of schps. for studying in the Kan. & Upper Secondary schools, the Education Committee recommend that in place of 10 Schps. of Rs. 5 each, 20 Schps. of Rs. 3 each p. m. may be granted, and that if larger number of admissions ~~are~~ to seek admission into Ver. (1) one Schp of Rs. 5 each p. m. to one student from each taluk or Sub. taluk that passes Eng. L.S. Exn. highest in the taluk

for studying in the Kannada Upper Secondary classes.	8 at Rs.5/- to pupils coming from Kannada Schools after ---- passing Kannada - Lower Secondary Examination.

2 at, Rs.6/- to pupils -- passing Kannada --- Lower Secondary --- Examination in 1st class, in the order of merit.

3 The Inspector General's scheme involves an additional cost of Rs.8,644/- from the 3rd year onwards, the amount necessary for the 1st year being Rs.3,096/-.

4 The Education Committee of the --- Economic Conference who were consulted in the matter have proposed that in -- addition to the 6 merit scholarships of Rs.6/- each, 1 scholarship of Rs.5/- each per mensem may be given to one -- student from each taluk or sub-taluk, that passes highest in the English --- Lower Secondary Examination among the candidates from the Anglo-Kannada Schools of the taluk or sub-taluk, on the --- following conditions:-

the scholarships should be -- given only to pupils coming from stations where there are no High Schools;

they should be granted only when the students concerned cannot continue their study without the help of scholarships;

the scholarship-holder should live in the hostel, where one is available, attached to the High -- School where he studies,

the tenure of the scholarships will depend on the satisfactory progress and conduct -- of the students;

and the scholarship-holder will be exempt from paying the school-fees.

5 Regarding the grant of scholarships ~~for~~ studying in the Kannada Upper Secondary Schools, the Education Committee recommend that 20 scholarships of Rs.3 each per mensem may be granted, and -- that if larger number is to seek ---- admission into Vernacular High Schools an assurance should be held out that in all departmental schools the minimum -- salary of a teacher that has passed the Upper Secondary Examination will be -- Rs.12/-

6 The recommendations of the Inspector General as modified by the Education -- Committee may be sanctioned:-

(1) One scholarship of Rs.5/- each per mensem to one student from each taluk or sub-taluk - that passes English Lower Secondary Examination --- highest in the taluk.

(2) Six scholarships of Rs.6/- each per mensem to the first 6 -- students that pass English Lower Secondary Examination in 1st class.

& (3) twenty scholarships of --- Rs.3/- each per mensem to the students that -- pass Kannada Lower --- Secondary Examination and join the Vernacular High Schools for study.

7 The total additional recurring --- expenditure on this amount will be -- Rs.14,796/- from the 3rd year onwards. The charge during the 1st year will be Rs.5,172/-.

8 The Financial branch considers that the scheme is unnecessary now and --- that only technical and industrial -- education requires scholarships and general literary education stands in need of none.

SIR,

The Mysore Economic Conference,

Education Committee.

If the benefits of higher education are to - reach the population of towns remote from places where High Schools are located some provision of the kind recommended is necessary. The Education Committee will move a proposition to that effect at the ensuing Conference. One scholarship of Rs.5/- may be set apart for each Taluk or Sub-Taluk to be claimed by the student who, among those who pass, from his - Taluk or Sub-Taluk the Mysore Lower Secondary Examination with English as first language, obtains the - highest number of marks. These scholarships are required for boys from Anglo-Kannada schools, special scholarships being available for girls and Muhammadans. The number of Anglo-Vernacular schools, the pupils from which may claim these scholarships, is about 70. The following conditions under which the scholarships may be granted give further indication of the object with which the institution of the - scholarships is recommended:--

1. These scholarships will be restricted to pupils of Anglo-Vernacular schools at stations where there are no High schools, who after passing the - Mysore Lower Secondary examination with English as - first language wish to proceed to one of the High schools in the State for purposes of further education.

2. One scholarship will be attached to each Taluk or Sub-Taluk and will be awarded to the student who among the successful students of his Taluk or - Sub-Taluk secures the highest number of marks in the last preceeding Mysore Lower Secondary examination.

3. The scholarship shall not be awarded to a student who is able to prosecute his studies without assistance.

4. The scholarship shall not be granted to a student who does not reside in the High School - Students' Home where such a Home is provided.

5. The scholarship may be withheld wholly or in part in case of wilful neglect of studies or unsatisfactory behaviour.

6. The scholarship will be tenable ordinarily for not more than three years.

7. Scholarship-holders shall be exempt from payment of fees.

The Inspector-General proposes to award a few merit scholarships on the lines of those awarded to candidates passing the Matriculation or the Intermediate Exn. Six - - scholarships of Rs.6/- each are proposed. These - scholarships will be available to all eligible - - students irrespective of locality. They may also be sanctioned.

Ten scholarships of Rs.5/- each are proposed

for

for Vernacular High schools. The poor attendance in Vernacular High schools is due to the fact of there being no scholarships available for candidates joining them. Instead of 10 scholarships of Rs.5/- each I would suggest 20 scholarships of Rs.3/- each to be awarded to students who come from surrounding places for purposes of further study. If larger numbers are to seek admission into Vernacular High schools it is necessary that the students should have some assurance that in all departmental schools the minimum salary of a teacher that has passed the Upper Secondary examination will be Rs.12/- p.m.
